

Graduate Consultant

Salary: Competitive

**Location: Reading, Berkshire
(with nationwide travel)**

Automation Consultants are a leading, dynamic and forward-thinking company in the technology industry. We work with a number of renowned companies across the UK, delivering industry recognised automation solutions, software development and performance testing procedures.

We are a fast-growing company currently recruiting an exceptionally talented individual to join our team as a Graduate Consultant. We pride ourselves on our contemporaneity and innovation and welcome applications from ambitious, energetic and enthusiastic candidates.

Your Role

Working as part of our highly skilled consultancy team, you will work through complex client projects, including data migrations, software upgrades and performance testing procedures, as well as conducting internal projects and development.

This is a diverse and fast-paced role that requires wide technical knowledge, the ability to problem solve and adopt new technical skills quickly.

The successful candidate will have:

- Experience using at least two of the following programming languages and operating systems; Java, Python, C, C#, C++, Matlab and Linux
- A relevant and strong degree within a science, technology, engineering or mathematics based subject, 2:1 minimum
- A knowledge of and interest in the software development lifecycle
- Strong interpersonal skills with the ability to deliver to strict deadlines
- The passion to learn new skills and procedures in order to be an effective member of the team
- A knowledge of Atlassian software is beneficial

Working at Automation Consultant:

- Receive ongoing training and development, and the opportunity to obtain further industry recognised certifications, including AWS, Atlassian and Azure
- Work on a variety of projects, utilising the latest software and implementing innovative automation solutions
- Opportunity to travel for a variety of projects and industry events
- Learn from and work as part of a dynamic and highly skilled team
- Clear career progression with the opportunity to grow with the company
- Strong working culture, with flexible hours and a friendly, collaborative environment
